Tempestus Veteran: Once per battle, you can either use a firefight ploy for OCP if this is the specified **TEMPESTUS AQUILON** operative, or the Command Re-roll firefight ploy for OCP if this is the operative the attack or defence dice was rolled for.

COMMAND

1AP

- ▶ **SUPPORT.** Select one other friendly **TEMPESTUS AQUILON** operative (excluding **SERVO-SENTRY**) visible to and within 6" of this operative. Until the end of that operative's next activation, add 1 to its APL stat.
- ◆ This operative cannot perform this action while within control range of an enemy operative.

Grenadier: This operative can use frag, krak, smoke and stun grenades (see universal equipment). Doing so doesn't count towards any limited uses you have (i.e. if you also select those grenades from equipment for other operatives). Whenever this operative is using a frag or krak grenade, improve the Hit stat of that weapon by 1.

***Salvo:** Select up to two different valid targets that aren't within control range of friendly operatives. Shoot with this weapon against both of them in an order of your choice (roll each sequence separately).

Gunfight: Whenever an enemy operative within 8" of this operative shoots this operative, keep track of each attack dice that's discarded as a fail. After the action, before incapacitated operatives are removed (including this one, if relevant), this operative can perform a free **Shoot** action (you can change its order to Engage to do so), but it can only target that enemy operative with its hot-shot laspistols (focused), and you only roll a number of attack dice equal to the opponent's discarded attack dice plus one (to a maximum of four).

Rapid Insertion: **STRATEGIC GAMBIT** in the first turning point. Each friendly **TEMPESTUS AQUILON** **TROOPER** operative wholly within your drop zone can immediately perform a free **Reposition** action, but must end that move wholly within 3" of your drop zone.

Swift Landing: When this operative lands, you can set it up within 4" horizontally of one of your Drop markers, taking precedence over the normal distance requirement.
